To Whom It May Concern:

Re: Vision Media Systems

It is with pleasure that I am writing this for Vision Media Systems.

The Museum Hotel has been working closely with Vision Media Systems for 6 months now, during this time we have found their commitment to service and support over and above the call of duty.

It was due to the competitive pricing that Vision Media Systems are able to offer that we chose to use the company for all our Audio Visual requirements. To find that this competitive pricing comes with exceptional quality products was an added bonus.

The Museum Hotel has a commitment to continually improve the environmental performance of its business operation, and the environmental awareness of its staff. An environmental awareness action plan has been developed and being able to add using Vision Media Systems to this has been beneficial as they are certified carbon neutral, which compliments the Museum Hotel's vision

Should you to discuss this further, please do not hesitate to contact any of the conference team.
